# About Us

Sterling Industris is a highly reputed business entity, which came into being with a sole motto of rendering customers maximum satisfaction. Established in the year 1983 as a Sole Proprietorship firm, our company has directed its all efforts towards manufacturing, exporting and supplying a large gamut of Concrete Pump Spare Parts, Batching Plant Spare Parts, Transit Mixer Spare Parts, Silo Accessories, Cement Feeding Blower and many others. All products are designed with utmost accuracy, keeping the specific needs of customers in mind. Use of premium quality raw material in the manufacturing of whole assortment has made our products exceptional from our competitors and the most preferred choice of huge clientele. Also, we implement advanced production techniques to cope with the market challenges and ensure advanced products range available to our esteemed clients. We export 40% of our product to UAE.

For having organized and smooth business operations, our company has established a sophisticated infrastructural set-up within the premises. It sprawls across an extensive landmass and is equipped with all latest and technologically advanced machineries. We upgrade our machinery to enhance production level and meet the set production targets within committed time period. Furthermore, our infrastructure encompasses production, designing, administrative, research and development, logistics, sales and marketing and many other departments. All departments are handled appropriately by our specialized team, who assure hassle free execution of all business activities.
